

Budapest Trip: February 2011

- During February 2011 teachers Hannah McCormick; Elizabeth Jobling and students Rebecca Fabian-Edwards, Rondene Vassell; were invited to attend a schools conference in Budapest to discuss 'Educational Patterns, Traditions and Innovations.
- As part of the week's programme; The International School presented to the other partners involved within the group, discussing historical movements within Education and the influence/impact government has had through generations of learners.

- We were invited to attend a lecture at the 'Budapest Ministry of Education' based on how the government reviews/regulates its schools and supports learners who have to make decisions about their further education.

- The trip to Budapest, Hungary included various visits to historical sites such as Buda Castle, Houses of Parliament and the Royal Opera House. We also visited the partner school in Budapest where we gained a glimpse of the day to day life of the school. The experience also included traditional Hungarian Folk dancing, traditional foods and got a good overall view of the city itself.

- A very well organised and informative visit; which encouraged its visitors to embrace the culture and history of Budapest.

- The students involved have produced a diary describing their experiences during the weeks activities.
